What are the activities and experience of the partner organisation in the areas relevant for this project? What are the skills and/or expertise of key persons involved in this project?

One of the main aims of Eurocultura is to improve employability of people, f. e. of young or long-term unemployed people, migrants and refugees. To achieve this goal since over 25 years we promote activities aimed at the acquisition of new skills, both social and professional, to enrich the portfolio of the target group.

Our activities range from the promotion and organization of voluntary work, studying and working abroad to the provision of training courses and seminars focused on the acquisition of soft skills (leadership, communication, techniques of active job search, entrepreneurship, etc.).

One of the aspects we particularly take care of concerns intercultural relations, a set of skills that we consider essential for a civic coexistence within a multi-ethnic society and a positive inclusion in a globalized world of work that requires the capability to relate to people of different cultures, religions and sets of values.
